MSE 302: Electronic Materials

Course description: Structure of materials; electronic structure of solids; thermal, electrical, dielectric, and magnetic properties of materials; semiconductors processing.

Number of credits: 3

Course Coordinator: M.K. Song

Prerequisites by course: Chem 105; Physics 202 or concurrent enrollment

Prerequisites by topic: Atomic structure, electricity and magnetism

Postrequisites: Recommended but not required for EE 478, Phys 303

Textbooks/other required materials:

Course objectives:
1. Provide an introduction to materials and their properties as used in non-structural applications, particularly semiconductors, electrical, optical, and magnetic properties.
2. Provide an introduction to the processing methods for materials used in the semiconductor industry.

Topics covered:
1. Crystal structures and bonding
2. Electrical and thermal conductivity
3. Introduction to quantum mechanics
4. Band gaps and structure
5. Intrinsic and extrinsic semiconductors, p-n junction
6. Magnetic properties
7. Dielectric and piezoelectric properties
8. Optical properties
9. Semiconductor fabrication

Expected student outcomes:
1. Understand bonding types, crystal structures, and defects.
2. Relate temperature and energy, energy and electromagnetic spectra.
3. Understand the role of defects in the electrical properties of materials.
4. Determine electrical conductivities of metals.
5. Determine conductivity in semiconducting materials and dopants influence
6. Understand the principle of operation in p-n junction
7. Have a basic knowledge of the processing steps in modern semiconductor fabrication techniques.

Class schedule: Three 50-minute or two 75-minute lecture sessions per week, for one semester.

Laboratory schedule: None.

Contribution to meeting the professional component: Engineering Topics

Relationship of course to program objectives:
1. School of MME Educational Objectives: 1, 2, 3
2. School of MME Program Outcomes: (a), (e), (k), (l), (m)
3. ABET EC2000, Criterion 3: (a), (e), (k), (l), (m)

POLICIES
A. Reasonable Accommodation (the nature of the particular course determines which one applies):

- **Pullman Campus.** Reasonable accommodations are available for students with a documented disability. If you have a disability and need accommodations to fully participate in this class, please either visit or call the Access Center (Washington Building 217; 509-335-3417) to schedule an appointment with an Access Advisor. All accommodations MUST be approved through the Access Center.

- **WSU Online Course.** Reasonable accommodations are available in online classes for students with a documented disability. All accommodations must be approved through your WSU Disability Services office. If you have a disability and need accommodations, we recommend you begin the process as soon as possible. For more information contact a Disability Specialist on your home campus: Pullman or WSU Online (http://accesscenter.wsu.edu), Spokane (http://spokane.wsu.edu/students/current/studentaffairs/disability/), Tri-Cities (http://www.tricity.wsu.edu/disability), Vancouver (http://studentaffairs.vancouver.wsu.edu/student-resource-center/disability-services).

B. Academic Integrity
WSU expects all students to behave in a manner consistent with its high standards of scholarship and conduct. Students are expected to uphold these standards both on and off campus and acknowledge the university's authority to take disciplinary action. The Standards of Conduct for Students can be found at http://conduct.wsu.edu.

C. WSU Safety
WSU is committed to maintaining a safe environment for its faculty, staff, and students. Safety is the responsibility of every member of the campus community and individuals should know the appropriate actions to take when an emergency arises. In support of our commitment to the safety of the campus community the University has developed a Campus Safety Plan, http://safetyplan.wsu.edu. It is highly recommended that you visit this web site as well as the University emergency management web site at http://oem.wsu.edu to become familiar with the information provided.
